^aFY2012 figures on state support for higher education represent initial allocations and estimates reported by the states and are subject to change. ^bState monies include state tax appropriations and other state funds allocated to higher education. ^cIncludes education stabilization funds used to restore the level of state support for public higher education. ^dExcludes government services funds used for modernization, renovation, or repair. ^eCalifornia data for fiscal years 2007, 2010, 2011 and 2012 do not include bond debt service monies that had been included in earlier Grapevine reports. ^fIllinois data for fiscal year 2012 include rapidly increasing appropriations made to the State Universities Retirement System (SURS) to address historical underfunding of pension programs. These SURS appropriations do not go to individual institutions or agencies and are not available to be used for educational purposes. ^gFY12 funding for Missouri includes \$30 million from MOHELA (the Higher Education Loan Authority of the State of Missouri); these funds were earmarked for need-based financial aid.
